

APACT2013 Poster Session

Convention Hall, August 19 – 21, 2013

Program No.	Presenter: Given Name	Presenter: Family Name	Affiliation	Paper title
P-PL1-01	Prudence	STONE	Smokefree Coalition of New Zealand / National Tobacco Control Working Group	Effective Nationwide Networking and Social Movement in Aotearoa New Zealand
P-PL1-02	Worrawan	JIRATHANAPIWAT	Southeast Asia Tobacco Control Alliance (SEATCA)	Tobacco Industry Surveillance Network in Southeast Asia: Stepping Up Tobacco Industry Counteraction
P-PL1-03	PREMTIP	THAVEERATITHAM	Physical Therapy Against Tobacco Network	Prevalence of smoking in students of Chulalongkorn University
P-PL1-04	Pariya	GAINROJ	Mahidol University	Situation and Trends of Adolescent Smoking in Thailand: Results from 5 waves of ITC-SEA (Thailand) Surveys
P-PL1-05	Richard	EDWARDS	University of Otago	Monitoring political discourse around end-game goals: Using a mix of automated and human textual analysis to enable an on-going overview.
P-PL2-01	Fumio	BESHO	Kyoto University School of Medicine	Effects of parental smoking during pregnancy on development of childhood cancers
P-PL2-02	Syed	ALAM	Work for a Better Bangladesh Trust	Broadening the scope from TC to NCDs, ideas and a case study
P-PL2-03	Phenprapa	CHILAKUL	Action on smoking and Health foundation (ASH Thailand)	Role of Tobacco control resource center project on public awareness regarding smoking
P-PL2-04	Wantanee	THONGNUN	Sanpasithprasong Hospital	The effectiveness of the Motivational interviewing program related to the smoking cessation among health care providers, At Sanpasithprasong Hospital, Ubonratchathani Province Thailand
P-PL2-05	KAZUNARI	SATOMURA	Kyoto University	What is necessary to make smoke-free society in Japan?
P-PL3-01	Rong	ZHENG	University of International Business and Economics	The Impact of 2009 China Cigarette Tax Adjustment on Cigarette Retail Prices, Cigarette Class/Grade Choice and Cigarette Consumption
P-PL3-02	Rong	ZHENG	University of International Business and Economics	Cigarette Retail Price Variations in China: Evidence from the International Tobacco Control China Survey
P-PL3-03	Florante	TRINIDAD	World Health Organization Office of the Representative in the Philippines	Communication Strategy on Tobacco Tax Reforms: The Philippines' Experience
P-PL3-04	Ataru	IGARASHI	The University of Tokyo	HOW MUCH THE APPROPRIATE TOBACCO PRICE WOULD BE? -CONJOINT ANALYSIS FOR GENERAL PUBLIC IN JAPAN
P-PL3-05	Ataru	IGARASHI	The University of Tokyo	HOW MUCH VARIOUS ANTI-TOBACCO POLICIES WOULD AFFECT SMOKERS' ATTITUDES? -CONJOINT ANALYSIS IN JAPAN
P-PL3-06	Nigar	NARGIS	World Health Organization / University of Dhaka	Is employment in bidi manufacturing a concern for bidi taxation?
P-PL3-07	Rong	ZHENG	University of International Business and Economics	The Impact of Cigarette Tax and Price Policy on Tobacco Industry Behavior
P-PL3-08	PRANAY	LAL	International Union Against Tuberculosis and Lung Disease	Contribution of sale to minors to tobacco industry and government revenues - a case of India
P-PL3-09	Taufur	RAHMAN	Campaign for Tobacco-Free Kids	Improper tobacco taxation benefiting the tobacco industry in Bangladesh
P-PL3-10	Hoang Anh	PHAM	HealthBridge Canada, Vietnam Office	The impact of tobacco tax increase on affordability revenue and the implication for tax policy in Vietnam
P-PL3-11	Hiroshi	NOGAMI	Coalition on a Smoke-free Environment for Kids in Japan	Increase of income of the sales profit and tax revenues by the price increase (tax-rates raising) of the tobacco from October, 2010
P-PL3-12	Daravuth	YEL	World Health Organization	Low Cost of Manufactured Cigarettes in Cambodia Targets the Poorest and Youngest Smokers
P-PL3-13	Abdillah	AHSAN	Faculty of Economics University of Indonesia	Tobacco Excise Policy in Indonesia : Bringing the Health Objectives Back In
P-PL3-14	Maniphanh	VONGPHOSY	Southeast Asia Tobacco Control Alliance	Curbing tobacco epidemics by tobacco taxation in Lao PDR
P-PL3-15	Minh	NGUYEN	University of Illinois at Chicago	High-priced smuggled cigarettes: the case of Vietnam
P-PL3-16	PRANAY	LAL	International Union Against Tuberculosis and Lung Disease	The perverse economics of tobacco trade in India and its implication on taxation
P-PL3-17	Irene Patricia	REYES	HealthJustice Philippines	Cigarette Price and Retailer Survey in the Philippines
P-PL4-01	Ritsu	SAKATA	Radiation Effects Research Foundation	Smoking reduces life expectancy in Japanese the same as other populations.
P-PL4-02	Edgardo	DOROTHEO	Southeast Asia Tobacco Control Alliance (SEATCA)	FCTC COP5 outcomes and work towards a successful COP6
P-PL4-03	Deepak	PATIL	Salaam Bombay Foundation	Empowering Health Workers to support Rural Communities to Fight Tobacco
P-PL4-04	Andrea	FOGARASI-GRENCZER	Project coordinator	Tobacco smoking and poverty in the fertile female population
P-PL4-05	Xia	WAN	Institute of Basic Medical Sciences at Chinese Academy of Medical Sciences / Peking Union Medical College	Looking at Policy Change at the Provincial Level in China
P-PL4-06	Yen Lian	TAN	Southeast Asia Tobacco Control Alliance	Changing tobacco control policy in Southeast Asia: The power of a regional collaboration
P-PL4-07	Jennie Lyn	REYES	Southeast Asia Tobacco Control Alliance	Economic Impacts of Tobacco vis-a-vis Rice Farming and Implications on

P-PL4-09	SHAMEEM	PATWARY	HUMANIST AND ETHICAL ASSOCIATION OF BANGLADESH	Crop Substitution ; a case study for Bangladesh
P-PL4-10	MASAKO	TANAMURA	Healthcare Professionals Association against Tobacco in Chiba	Recognition of smoke-free legislation: Attitudes of the hotel staffs towards non-smoking environments in Chiba
P-PL4-11	Kaori	HIROHASHI	Hojo Hospital	The direction of tobacco countermeasure which was showed in the opinion pool of the citizens investigated in Matsuyama City in Japan
P-PL4-12	Soewarta	KOSEN	National Institute of Health Research & Development, Indonesia	Indonesian Compliance to Framework Convention on Tobacco Control
P-PL4-13	NARAYAN	BILLAVA	CENTRE FOR MULTI DISCIPLINARY DEVELOPMENT RESEARCH	Can India facilitate diversification from Tobacco dependent employment? [Research findings from an all India study on Tobacco growers, Bidi Rollers and Tendu Leaf Pluckers]
P-PL4-14	Jun	SONO	Tobacco-Free Advocacy Japan	TFAJ Tobacco-Free Advocacy Japan, its Agenda & Activity
P-PL4-15	Carmen	Audera-Lopez	World Health Organization / Allen and Clarke Policy and Regulatory Specialists Ltd	Challenges to tobacco taxation implementation in the Pacific
P-PL4-16	Arif	SIKDER	Environment Council Bangladesh	Strengthening Tobacco Advertising Promotion and Sponsorship Ban in Bangladesh
P-PL4-17	Katsushi	Murayama	Murayama Pharmacy	Support for quitting smoking to adolescents at a pharmacy in Japan
P-PL4-18	Judith	MCCOOL	University of Auckland	Supporting Pacific Island Countries to strengthen their resistance to tobacco industry interference in tobacco control
P-S1-01	Richard	EDWARDS	University of Otago	Secondhand smoke exposure in cars and homes is associated with susceptibility to smoking in 14-15 year old children: Repeated national survey data
P-S1-02	Hiroshi	YAMATO	University of Occupational and Environmental Health	The impact of designated smoking areas in where outdoor smoking is banned: The case of Kobe City
P-S1-03	Dollaris	SUHADI	Swisscontact Indonesia Foundation	Smoke-free policy development using air pollution control as an entry point: a case in Jakarta, Indonesia
P-S1-04	JUGDEEP	RANA	International Union Against Tuberculosis and Lung Disease, India	How Bloomberg Grants Programme prioritised and accelerated FCTC/MPOWER implementation in India?
P-S1-05	Chakkraphan	PHETPHOOM	Faculty of public health Naresuan University	THE PATTERN OF RURAL RETAILER BEHAVIORAL CONCERNING CIGARETTE SALE TO MINORS IN THE LOWER NORTHERN THAILAND.
P-S1-06	Loic	GARCON	WHO Centre for Health Development	Barriers for Local Governments in Japan to Control Tobacco: The Example of Hyogo
P-S1-07	Shanta	MULMI	Resource Centre for Primary Health Care	People's Initiative in making Smoke Free Public Places: Case Study of Banke & Ilam Districts of Nepal
P-S1-08	Narito	KURIOKA	Kyoto Association for Tobacco Control	En Route to the Enactment of Smoke-Free Legislation in Kyoto
P-S1-09	Wulan	SEBASTIAN	University of Sydney	The quality of tobacco free zone regulation in three provinces with special autonomy status in Indonesia
P-S1-10	Takashi	DOI	Kyoto Association for Tobacco Control / Kyoto Medical Association / Doi Internal Medicine Clinic	Kyoto-based Tobacco-Free Caravan" collaborated with organizations, universities, and local governments -Part2-
P-S1-11	Mee-Kyung	SUH	Korea Institute for health and social affairs	Health impact assessment of the "smoke-free policy" in Gwangmyeong City
P-S1-12	Sea- Wain	YAU	John Tung Foundation	Current state and future prospect of FCTC in Taiwan
P-S1-13	Ching-Li	LIN	John Tung Foundation	How NGO to Against Tobacco Industry and Press Government to Effectively Enforce the Tobacco Hazards Prevention Act
P-S1-14	Abdillah	AHSAN	Faculty of Economics University of Indonesia	Awareness and Support of 100% Smoke Free Indoor Area in Jakarta
P-S3-01	TAKASHI	HANIOKA	Fukuoka Dental College	Periodontal disease, education and training of dental professionals, and tobacco control
P-S3-02	Piyada	PRASERTSOM	Bureau of Dental Health	The Study of Oral Lesion Screening and Smoking habit among Thais.
P-S3-03	Nontinee	TANGCHAROENDEE	Ministry of Public Health, Thailand	Comparison of the cases of oral cancer and potentially malignant disorders (erythroplakia and leukoplakia) reported in 2009 and after launching an oral lesion screening program in Thailand in 2011.
P-S3-04	SUSHIL	PHANSOPKAR	DR.D.Y.PATIL DENTAL COLLEGE AND HOSPITAL.	CHEMICAL EVALUATION OF 3 DIFFERENT ELECTRONIC CIGARETTE CARTRIDGES AND ASSESSMENT OF KNOWLEDGE, ATTITUDE AND PRACTICE REGARDING E-CIGARETTE AMONGST ITS USERS IN PUNE CITY, INDIA.
P-S3-05	Kazunori	NAKAKUKI	Nakakuki Dental Office	Smoking cessation environment 2012, according to the 4 fields of dentistry in Japan
P-S4-01	Min Kwang	TSAI	National Health Research Institutes / China Medical University Hospital	The smoke risk for ischemic and hemorrhage stroke mortality
P-S4-02	Koji	HASEGAWA	Kyoto Medical Center, National Hospital Organization	Smoking cessation reduces oxidative stress measured by salivary oxidation-reduction potentials.
P-S4-03	kazuhsa	NISHIMURA	Ehime University graduate school of medicine	Impact of the Passive Smoking on Vasospastic Angina "Analysis of the Urinary Cotinine"
P-S4-04	Chisato	MURATA	Tokyo Saiseikai Central Hospital	The effect of smoking on body weight and glucose metabolism
P-S4-05	Chizimuzo	OKOLI	University of Kentucky	Outcomes of a smoking cessation clinic in Cardiology Services, Vancouver, Canada
P-S4-06	DUANGKAMOL	VIROONUDOMPHOL	Talabporn Hamroongroj	HEAVY METALS, TOXIC AND ANTIOXIDANT TRACE ELEMENTS IN TOBACCO SMOKING
P-S4-07	Sayaka	SHIMADA	National Hospital Organization, Kyoto Medical Center	Improvement of blood mobility at one year after smoking cessation.
P-S4-08	ATIKAH	FATYA	FACULTY OF MEDICINE, UNIVERSITAS INDONESIA	The Difference of Total Cholesterol Between Male Tobacco Smokers and Male Tobacco Non-Smokers 20 - 60 Years Old in Salemba During Year 2009 - 2010
P-S4-09	Yoko	MATSUNAMI	Yamagata University	Exposure to secondhand smoke among employed male Japanese coronary heart disease patients and the control of smoking in their workplaces
P-S4-10	Muhammad	SUHAIMI	Universiti Sains Malaysia	The Relationship of Smoking Dependence with Blood Pressure, Physical Activity and Body Fatness among Healthy Male Smokers
P-S4-11	Ichiro	SAKUMA	Caress Sapporo Hokko Memorial Clinic	Smoking and Passive Smoking Result in Atheroma Generation in Japanese Women Without Risk Factors
P-S4-12	Nobuhisa	YAMADA	Yamada-Kikuchi Clinic	Change of central blood pressure before and after varenicline therapy
P-S5-01	Hiroshi	NOGAMI	Coalition on a Smoke-free Environment for Kids in Japan	The poster contest of non-smoking promotion, and the spread enterprise by the network of a picture-slide show
P-S5-02	Loic	GARCON	WHO Centre for Health Development	Awareness of street smoking ban regulation in Kobe city: Results of interviews from a pedestrian survey
P-S5-03	Loic	GARCON	WHO Centre for Health Development	Assessing the compliance of the ordinance banning smoking on selected streets in Kobe city, Hyogo, Japan
P-S5-04	Charamporn	HOLUMYONG	Mahidol University	Home And Workplace Smoking Bans And Support For Public Smoke-Free Policy Among Adult Smokers In Thailand: Findings from the International Tobacco Control Thailand Survey
P-S5-05	Li-Ju	LIN	Health Department of Taipei City Government	Taipei City Citizens' Approval Ratings for Building a Smoke-Free Environment and Factors Influencing the Ratings
P-S5-06	Jinghua	NI	Chinese Association on Tobacco Control	Pilot program of creating 100% smoke-free schools in Beijing, Zhengzhou and Kaifeng of China
P-S5-07	Yujiro	TAKAI	Toho University Omori Medical Center	Analysis of smoking status and motivation for smoking cessation before and after establishment of a tobacco-free campus at a university hospital
P-S5-08	TEERANOOT	KONKAWE	Mahidol university	Smoking Restriction and Amount of Daily Cigarette Consumption among Adult Smoker: Findings from Waves 1-5 of ITC-SEA (Thailand)
P-S5-09	Yoshinobu	HATA	Sapporo Social Insurance General Hospital	Initiatives following the prohibition of smoking in Hospital and its grounds
P-S5-10	Janet	HOEK	University of Otago	Perceptions and Misperceptions of a Smokefree Goal: Challenges for Communications
P-S5-11	Ayumu	BENITANI	Tobacco Mondai wo Kangaeru kai Chiba	Result of investigation about Smoke-free environment of institutions in Chiba prefecture ,Japan and consideration to achieve Smoke-free environment
P-S5-12	Janelle	CHIA	Health Promotion Board	Singapore's Blue Ribbon Smoke-Free Movement In The Hotel Industry
P-S5-13	Yoko	MATSUNAMI	Yamagata University	Evaluation of smoking recognition among health officers of Japanese companies by using the Kano Test for Social Nicotine Dependence (KTSND)
P-S5-14	PONGSRI	SRIMORAGOT	Thai Nurses Network on Tobacco Control / Mahidol University	Assessing Tobacco Smoke Situation around Smokers and Second Handed Smokers in Hospital Staffs
P-S5-15	Masayuki	TAKAHASHI	Biwako Seikei Sport College	Space Separation is Ineffective to Prevent Passive Smoking
P-S5-16	Yasushi	ISOJIMA	Foundation of Kinki health administration center	Analysis of dynamics in smoking status in Japanese workers
P-S6-01	Hironobu	SUGITA	Japan anti-tuberculosis association / Daiichi dispensary	Association between smoking and tuberculosis infection
P-S7-01	Ildiko	RAKOCZI	University of Debrecen	Smoking habits among pregnant women in Hungary
P-S7-02	Sane	SAENGERN	Sukhothai provincial public health office	Health risks of second-hand smoke on women in Sukhothai province, Thailand
P-S7-03	Nan Hee	YEE	Korea Institute for Health and Social Affairs	The Risk factor of Smoking on Birth Outcomes
P-S7-04	Fumiaki	SUZUKI	Taniguchi Hospital	Effects of age at smoking initiation of pregnant women on subsequent smoking habits
P-S7-05	Masaaki	YAMAOKA	Sumoto Emergicenter	Decrease of pregnant smokers and Changing of exposure to environmental tobacco smoke in pregnant women
P-S7-06	Keiko	AOISHI	Miyazaki University	Effects of Maternal Smoking to the Smoking Intention and to The Attachment Formation of Minors in Japan

APACT2013 Poster Session

Convention Hall, August 19 – 21, 2013

Program No.	Presenter: Given Name	Presenter: Family Name	Affiliation	Paper title
P-S8-01	Risa	NAKAYAMA	Kyoto Prefectural University of Medicine	Outreach activities for tobacco-free carried out by nursing students
P-S8-02	Na	ZHAO	Chinese Association on Tobacco Control	Effect on doctor's knowledge, attitude, and practice of tobacco control of creating smoke-free hospital in 60 hospitals in Beijing, Shanghai and Guangzhou of China
P-S8-03	Yohei	Hosokawa	Omiachiman Community Medical Center	The tobacco control team in a core hospital and citizens join forces to take up the challenge against tobacco in Omiachiman, Japan
P-S8-04	Atsuko	NAKAZAWA	Doshisha University Health center	Changes in behavior and perception regarding smoking among Japanese nursing students from 2003 to 2009--
P-S8-05	Shu Yi	LEE	National University Hospital, Singapore	The Impact of Brief Smoking Cessation Counselling in A Tertiary Acute Care Hospital
P-S8-06	Rajmohan	PANDA	Public Health Foundation of India	Tobacco Counselling Practices by Primary Care Providers: Perspectives of Patients
P-S8-07	Nobuhito	ISHIKAWA	Kyoto First Red Cross Hospital	Advices of quitting smoking are necessary on health check-up.
P-S8-08	Naomi	MIKAMOTO	Kyoto Prefectural University of Medicine	Smoking prevalence and factors among nursing students in Kyoto, Japan
P-S8-09	Surintorn	KALAMPKORN	Mahidol University / Nurses' Network for Tobacco Control of Thailand	Smoking cessation services among Thai community health nurses
P-S8-10	Thanida	KHONGSAMAI	Bumrungrad International Hospital / Western University	The Effectiveness of a Clinical Nurse Coordinator in Managing a Smoking Cessation Clinic in a Private International Hospital
P-S8-11	Orasa	PANPAKDEE	Mahidol University	Thai Nurses and Tobacco Control : Sharing Experiences
P-S8-12	Florante	TRINIDAD	World Health Organization Office of the Representative in the Philippines	HEALTH SYSTEMS MODEL FOR THE PROMOTION OF SMOKE-FREE HOMES
P-S8-13	Supanee	SENADISAI	Thai Nursing Council	Roles of Thai Nurses in Tobacco Control
P-S8-14	Yayi	PRABANDARI	Universitas Gadjah Mada	A comparison study on physician survey 2003 and 2010 in Yogyakarta, Indonesia: Do the Primary Health Care doctors Assess and Advice more on Smoking Habit?
P-S8-15	PONGSRI	SRIMORAGOT	Thai Health Professional Alliance against Tobacco / Mahidol University	National Survey on Smoke Free Primary Care Hospitals in Thailand
P-S9-01	Hideo	TANAKA	Aichi Cancer Center Research Institute	A Tobacco Craving Index is a useful indicator to predict success of smoking cessation in settings of smoking cessation therapy.
P-S9-02	Chie	TANIGUCHI	National Hospital Organization Nagoya Medical Center	Factors associated with weight gain in Japanese smokers who received smoking cessation therapy.
P-S9-03	Marewa	GLOVER	University of Auckland	WERO: An innovative group stop smoking competition designed to reduce high smoking prevalence among ethnic minority and low socioeconomic populations: Main results
P-S9-04	Atsuko	AOKI	Kyoto Association for Tobacco Control	A Trial of smoking cessation support for youth smokers in school setting
P-S9-05	Masahiro	MORI	National Hospital Organization Chiba medical center	Absence of pre-operative smoking cessation is the maximum risk factor of post-operative complications occurrence
P-S9-06	Akira	OSHIMA	Osaka Medical Center for Cancer and Cardiovascular Diseases	J-STOP (Japan Smoking cessation Training Outreach Project): the outline and evaluation
P-S9-07	Anne	QUAH	University of Waterloo	Factors associated with smoking cessation among Bangladeshi adults: Findings from ITC Bangladesh Survey
P-S9-08	Takahiro	SHIMIZU	Chibana Clinic	The way to find "hidden"smokers' wish.
P-S9-09	Min Kuang	TSAI	National Health Research Institutes / China Medical University Hospital	Exercise helps smokers to quit smoking, to remain smoke-free and to reduce the risk of death
P-S9-10	Takashi	HANIOKA	Fukuoka Dental College	Enhancing Dental Tobacco Intervention Under the Universal Health Insurance System in Japan
P-S9-11	Sarita Devi	RAM SINGASAN	Health Promotion Board	Capacity Building in Smoking Cessation - Singapore's Experience
P-S9-12	Rachel	AMIYA	The University of Tokyo	Readiness to quit smoking among people living with HIV/AIDS (PLWHA) in the Kathmandu Valley, Nepal: knowledge of tobacco-related health risks is not enough
P-S9-13	Kuang-Chieh	HSUEH	John Tung Foundation	Varenicline versus Transdermal Nicotine Patch : A 3-year follow up in smoking cessation clinic in Taiwan
P-S9-14	Wakako	NAKANO	University of Occupational and Environmental Health	Current smoking rate in patients with psychiatric disorders in Japan: questionnaire survey
P-S9-15	Wakako	NAKANO	University of Occupational and Environmental Health	Outcome of smoking cessation therapy for nicotine dependents with psychiatric disorders in Japan
P-S9-16	Chiharu	YOSHII	Wakamatsu Hospital of University of Occupational and Environmental Health	Evaluation of one-year outcome of smoking cessation among patients who successfully finished a 12-week smoking cessation program
P-S9-17	Marewa	GLOVER	University of Auckland	New Zealand's Tobacco Control Research Turanga. Accelerating progress towards Smokefree New Zealand by 2025
P-S9-18	Chizimuzo	OKOLI	University of Kentucky	Smoking cessation outcomes among individuals with a History of Psychotic disorders as compared to those without
P-S9-19	Thanut	DOLAMPORNPHISUTH	Thai Health Professional Alliance Against Tobacco	Efficacy of Foot Reflexology on Tobacco Cessation in Smart Quit clinics; Multicenter.,Thailand.
P-S9-20	Faizah	SAFINA	Universiti Malaya	WEB-BASED DIET MANAGEMENT PROGRAM FOR SMOKING CESSATION: CONTENT AND WEB DEVELOPMENT
P-S9-21	Pamela	REDMON	Emory Global Health Institute	Cessation support via mobile phone text messaging: Results from a pilot program in Suzhou, China
P-S9-22	Kuang-Chieh	HSUEH	John Tung Foundation	Smoking cessation treatment outcomes in men and women in Taiwan: Implications for interpreting gender differences in smoking cessation with nicotine patch
P-S9-23	THANIYA	KLINSOPHON	Chulalongkorn University	Effects of acupressure on Chinese traditional acupoints on smoking cessation
P-S9-24	Hiroshi	KAWANE	Japanese Red Cross Hiroshima College of Nursing	Smoking cessation guide books in Meiji era Japan (1868-1912)
P-S9-25	KaoRu	INOUE	Kyoto Tachibana University / Kyoto Prefectural University of Medicine / Kyoto Association for Tobacco Control	Socio-economic status of outpatient in Hospital
P-S9-26	Kie	CHIDA	Urakawa Public Health Center of Hokkaido Government	SMOKING CESSATION OF MENTALLY-DISABLED PERSONS: AN APPLICATION OF TRANSTHEORETICAL MODEL
P-S9-27	Claudine	OH	Alexandra Health Pte Ltd, Khoo Teck Puat Hospital	The Effectiveness of Outpatient and Inpatient Smoking Cessation Programmes at Khoo Teck Puat Hospital: Is there any difference?
P-S9-28	Rajmohan	PANDA	Public Health Foundation of India	Factors affecting motivation to tobacco cessation: Experiences from India
P-S9-29	Akari	OIKAWA	Hiroshi Tamura's Hill-top Clinic	The importance of the consultation times to make high success ratio of smoking cessation from the analysis of patient's background, to make better clinical pathway
P-S9-30	Iwao	GOHMA	Smoking Cessation Clinic	The influence of strict implementation of safety warning of varenicline concerning about driving motor vehicle on a smoking cessation clinic in Japan
P-S9-31	Sun-Hee	KIM	Asan Medical Center	Inpatient smoking cessation program: effect of intensive counseling combined with telephone follow-up in South Korea
P-S9-32	Kolawole	OKUYEMI	University of Minnesota Academic Health Center	Motivational Interviewing to Enhance Nicotine Patch Treatment for Smoking Cessation among Homeless Smokers: A Randomized Controlled Trial.
P-S9-33	Masami	Sato	Tokyo Musashino Hospital	Smoking cessation with psychiatric outpatients at a private psychiatric hospital in Japan
P-S9-34	Ayako	OKUNO	Hyogo Prefectural Nishinomiya Hospital	Predictors for Successful Smoking Cessation and Its Maintenance.
P-S9-35	Chiharu	YOSHII	Wakamatsu Hospital of University of Occupational and Environmental Health	Evaluation of social nicotine dependence using the Kano Test for Social Nicotine Dependence (KTSND-K) questionnaire in patients with lung cancer
P-S9-36	Chih-Ling	HUANG	Chang Jung Christian University	Psychometric Testing of the Chinese Version of the Cigarette Withdrawal Scale in Taiwanese Male Smokers
